Norfolk's base-running was sadly out of form.

Salve and Cowan will probably work to-morow against Cummings and Edwards for Norfolk.

Secretary Hannan, of the local club, said to-night that if Stanton worked to-morrow in any capacity he would do so at his own risk, for he would take no measures to protect the umptre. Hannan was very much disgusted with Flanton's work.

MINE WORK.—THE UNDERSIGNED company invites bids for sinking their double shaft, now 900 feet down, yet another hundred feet deeper, and for drifting out from it some two or three hundred feet, etc. The company cannot conveniently do this work themselves, as in the past, because it would interfere with their regular business of twenty years' standing. The company can furnish compressed air for the drills, and do the necessary holsting and pumping. Drills and dynamite can also be furnished, but at the expense of the contractor. The work is in schist-rock, not difficult to remye, but peeds no timbering. Accommodations are at hand, and living is cheap. Liberal terms will be given. Capital is not necessary, but practical miners of some experience, or otherwise any contractor of standing. Mineral is 66 miles north of Richisond, on the Chesapeake and Ohic.
